

VRC INDUSTRIAL SOLUTIONS IS A SERVICE-DISABLED VETERAN-OWNED COMPANY SPECIALIZING IN FLUID PROCESS EQUIPMENT AND MATERIAL HANDLING EQUIPMENT

FLUID PROCESS EQUIPMENT

VRC Industrial Solutions Specializes in the design and fabrication of fluid processing and filtration systems.

- Raptor Mobile Filtration Systems
- Raptor Magnetic Systems
- Separation Systems
- Oil/Water Recovery
- Tramp Oil Separation
- Fluid Treatment
- Energy Recovery
- Pump and Valve Protection

INNOVATIVE DESIGN

- Innovation through 3D modeling and design
- Custom Machine Design
- Custom Parts
- Computer Aided Design Services

QUALITY FABRICATION

- Machine Shop
- Weld Shop
- Paint Shop
- 10,000 Square Foot Facility
- Made in Michigan

MATERIAL HANDLING EQUIPMENT

VRC Industrial Solutions Specializes in the design and fabrication of custom material handling systems.

- Hydraulic, Electric and Pneumatic Systems
- Cleanout Machines
- Material Recycling
- Material Sorting
- Loading and Unloading

SYSTEM OPTIMIZATION

VRC Industrial Solutions team of Application Engineers provides system optimization services for existing fluid filtration and process equipment. We develop solutions to improve the reliability, efficiency and performance of your existing equipment.

- Heavy Fouling
- Heavy Contamination
- Costly or Frequent Repairs
- High Energy Cost
- High Waste Streams
- Safety Compliance
